OBJECTIVE: Senior Executive in Project Management or IT Development

PROFILE

Seventeen years of IT experience, acquired at international companies like Volkswagen/Gedas and T-Systems. Entrepreneur, capable of idealizing and structuring new businesses, as well as transforming complex operations. Experience in managing outsourcing contracts. Broad knowledge of Information Technology in automotive and manufacturing industries. International exposure (having traveled to more than 20 countries). Fluent in English and reasonable knowledge of German. Graduate in Electrical Engineering with emphasis in Computer Systems and Process Control.

PROFESSIONAL EXPERIENCE:

- T-Systems – December/2005 to March/2007

General Manager at the off-shore location, in Blumenau, Santa Catarina, Brazil. T-Systems is a service provider and the business customer unit of Deutsche Telekom, the big telecommunications company from Germany. It offers the entire range of information and communication technology and supports 160,000 business customers throughout the world. In 2005 T-Systems acquired Gedas AG, a Volkswagen AG subsidiary that provides global IT services and solutions to companies in the automotive and manufacturing industries. At the same time, T-Systems signed a frame contract with VW covering current IT services with the value of 2.5 billion euro over a term of seven years. As general manager of the off-shore location in Blumenau, I was responsible for some IT projects developed for VW subsidiaries in Mexico, Poland, China and South Africa.

- Gedas – February/1993 to November/2005

As a subsidiary of Volkswagen AG, Gedas has been active in the IT market for more than 20 years, with services that advises companies along the entire value-add chain in the automobile and manufacturing industries. When it was acquired by T-Systems, in 2005, I was responsible for developing some important projects for Volkswagen Brazil. One of them was the modernization of VW network infrastructure that connects five plants, eight offices and one distribution center.

- Volkswagen Brazil – March/1990 to January/1993

I started my professional career at Volkswagen as a trainee. My first position was in Data Processing Center. Then I held several positions advancing from systems development to business process management.

EDUCATION:

- Project Management Professional (PMP) Certification – from Project Management Institute (PMI) – February/2003
- Fundação Getúlio Vargas- São Paulo – MBA in Project Management – March/2002
- Escola Politécnica, Universidade de São Paulo - Electrical Engineering – 1985 to 1989

PROFESSIONAL DEVELOPMENT:

Several international trips to attend workshops, technical meetings, technical visits, congresses and seminars in countries like Germany, United States, Poland, China, Mexico and South Africa.
